08/01/2026

Dear Parents and Carers,

### **School Closure – Friday 9th January 2026**

Due to the severe weather forecast, the school will be **closed tomorrow, Friday 9th January 2026**.

Snow is expected from this evening and overnight until around 9:00 a.m. tomorrow morning. Current forecasts predict **10–15 cm of snow**, with the potential for **drifts of up to 20 cm**. This is likely to cause widespread disruption to the road network, with main roads affected by compacted snow and side roads potentially becoming impassable.

The council will be prioritising gritting and ploughing of main routes, and considerable strain is expected on emergency services.

In light of these conditions, the decision to close the school has been made to protect the **health, safety, and wellbeing of our school community**.

If there is no snowfall, you will receive a notification via the Teacher2Parents app by 7:30 a.m. confirming that the school will be open. However, at this time, the decision has been made to close the school to allow parents and carers sufficient time to make childcare arrangements for tomorrow (Friday 9<sup>th</sup> January)

Thank you for your understanding and support. Please stay safe and take care during this period of severe weather.

Kind regards,  
Mrs H Taylor  
Headteacher
